#### Priority

The Office Action at pages 2-3 alleges that claims 136-139, 185, and 215 are not entitled to any priority claim made in the application and instead are entitled to a filing date of October 25, 2001, and claims 117-135, 140-147, 180-184, 186-206, 210, 212, 214, 216-226 are entitled to a priority date of only April 17, 2001. Applicants disagree, however, Applicants have canceled claims 117-226, thereby rendering this point moot.

#### Abstract of the Specification

The Office Action at page 4 objects to the abstract of the application, alleging in part that "Applicants should amend the abstract so that it corresponds to at least one independent claim." While not conceding in the correctness of this objection, Applicants have amended the abstract as indicated in the amendments presented herein, and submit that it satisfies the requirements of MPEP § 608.01(b).

The Office Action further alleges that "the abstract is objected to because it does not include the technical disclosure of the improvement." Applicants submit that such a disclosure is not required because the present application is not drawn to an "improvement."

Applicants respectfully request that the objections to the abstract be withdrawn.

35 U.S.C. § 112, Second Paragraph

(*Immunology*, 6<sup>th</sup> ed., New York, Mosby 2001, pages 67-70 and 80). (*Vnitřní Lékarství* 36:1041-1049 (1999); translation provided by the Office), as evidenced by Roitt et al. (*Immunology*, 6<sup>th</sup> ed., New York, Mosby 2001, pages 67-70 and 80). Solely in the interest of expediting prosecution of this application, Applicants have canceled claims 117-226, thereby obviating this rejection.
